

MAGNA Glaskeramik Kitchen Splashbacks including LED Lightsheet

Simple and efficient processing in the area of the kitchen rear wall as a system

Maximum panel dimensions

Cross section of the rear wall structure

Advantages of the LED system MAGNA Glaskeramik

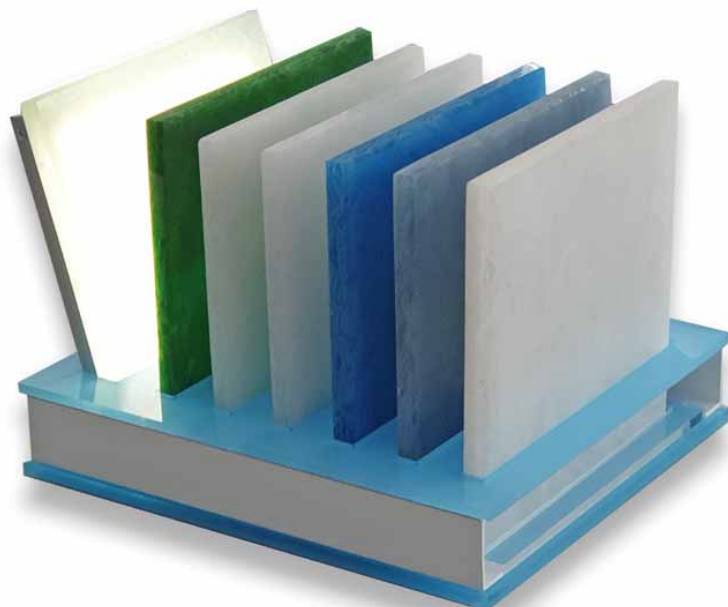

- The whole as a system solution from a single source
- Custom sizes (up to 300 x 130 cm) can be made
- The system comes ready-to-use with a plug to the plug in and remote control
- Drilling and notching possible without creating shadows because of the lasering Plexiglas individually with illumination calculation for each individual plate
- Easy installation and relatively light weight
- Great optics due to the surface backlighting

MAGNA Glaskeramik table display LED

- LED lighting included
- including 6 patterns (205 x 205 mm each)
in all MAGNA glass-ceramic colors available for the LED system
- dimensions display: 310 x 270 x 60 mm (L x W x H)
- as marketing support for better sales
